

Acknowledgement of Children's Health Contributions to Research

Research is part of Children's Health mission and commitment to our patients, our community and our academic partners. Children's Health invests considerable professional, financial, data and operational resources in research. There are a number of ways that Children's Health contribution to research can be acknowledged in publications, presentation and media opportunities.

1. Researchers who meet any of the following criteria should include their Children's Health affiliation on papers, abstracts, talks, educational materials, publications, presentations, and media opportunities. These include
 - Individuals who derive research salary support from Children's Health
 - Receives support for research project, materials, staff from Children's Health
 - **Receives financial support for the research project from Children's Health**
 - If research project uses data from Children's Health
 - If research project enrolls Children's Health patients
 - If research project uses Children's Health biospecimens
2. **How should Children's Health be cited?**
 - List **Children's Health** (instead of "our hospital" or "a safety net hospital") as the study site or source of study data and describe appropriately.
 - Specifically, list Children's Health programs, departments, processes or methods that are related to the research.
 - Cite Children's Health contributions to the work and to manuscript preparation.
 - *Acknowledgement:* The authors would like to acknowledge the support and cooperation received from the following individuals at Children's Health, Dallas, TX, USA: (list of names with credentials) (administrative support for conducting the study), (list of names with credentials) (the ward managers) and (list of names with credentials) the (staff members of the study units), for participating in the study intervention and surveys, (list of names with credentials) for reviewing ideas and solutions generated during intervention, and (list of names with credentials) in clinical decision support for partial assistance with data collection. The abovementioned contributors received no compensation for their work other than their usual salary. They have no conflicts of interest relevant to this article.
 - *Funding Support:* The study was funded by a research grant received from the **funding entity** (PI: name; Research Grant# xxxxxx). In addition, Children's Health provided **funding for** partial salary support (x%) and in-kind support for the duration of the study (this acknowledges Children's Health for unfunded/ non industry sponsored projects).
3. **Please contact Children's Health Communications, 214-456-5310 option 1, or Research Administration (RA) research@childrens.com for copies of Children's Health logos, planning for media releases or questions about citing Children's Health.**
4. **Please also contact Children's Health Communications if there is a press release from the research**
