

Acknowledgement of Parkland's Contributions to Research

Research is part of Parkland's mission and commitment to our patients, our community and our academic partners. Parkland invests considerable professional, financial, data and operational resources in research. There are a number of ways that Parkland's contribution to research can be acknowledged in publications, presentation and media opportunities.

1. Researchers who meet any of the following criteria should include their Parkland affiliation on papers, abstracts, talks, educational materials, publications, presentations, and media opportunities. These include
 - Individuals who derive research salary support from Parkland
 - Receives support for research project, materials, staff from Parkland
 - If research project uses data from Parkland
 - If research project enrolls Parkland patients
 - If research project uses Parkland biospecimens
2. How should Parkland be cited?
 - List Parkland Health & Hospital System (instead of "our hospital" or "a safety net hospital") as the study site or source of study data and describe appropriately.
 - Specifically, list Parkland programs, departments, processes or methods that are related to the research.
 - Cite Parkland's contributions to the work and to manuscript preparation.
 - Acknowledgement: The authors would like to acknowledge the support and cooperation received from the following individuals at Parkland Health and Hospital System, Dallas, TX, USA: (list of names with credentials) (administrative support for conducting the study), (list of names with credentials) (the ward managers) and (list of names with credentials) the (staff members of the study units), for participating in the study intervention and surveys, (list of names with credentials) for reviewing ideas and solutions generated during intervention, and (list of names with credentials) in clinical decision support for partial assistance with data collection. The abovementioned contributors received no compensation for their work other than their usual salary. They have no conflicts of interest relevant to this article.
 - Funding Support: The study was funded by a research grant received from the University of Texas System Patient Safety (PI: name; Research Grant# xxxxxx). In addition, Parkland Health and Hospital System provided partial salary support (x%) and in-kind support for the duration of the study (this acknowledges Parkland for unfunded/ non industry sponsored projects).
3. Please contact Parkland Communications or Office of Research Administration (ORA) for copies of Parkland logos, planning for media releases or questions about citing Parkland.
4. Please also contact Parkland Communications if there is a press release from the research
