
Office of Research Support &
Regulatory Management (RSRM)

The **Office of Research Support & Regulatory Management (RSRM)** oversees components of basic and clinical research that aim to help investigators assure compliance with regulatory requirements and institutional policies.

- The RSRM office is a centralized recourse that encompasses multiple units:
 - [Conflict of Interest \(COI\)](#)
 - [Export Control \(EC\)](#)
 - [Institutional Animal Care and Use Committee \(IACUC\)](#)
 - [Stem Cell Research Oversight \(SCRO\)](#)
- Our office is composed of >20 team members led by Dr. Stacy L. Pritt, Associate Vice President for the Office of Research Support & Regulatory Management.
- The RSRM office also supports multiple campus initiatives to assist our investigators in maintaining compliance with regulatory and institutional requirements. These include:

- [NIH Data Management and Sharing \(DMS\) Policy Readiness](#)

- [Departing Researchers: Research Project and Data Checklist](#)

Office of Research Support & Regulatory Management (RSRM)

- In addition, the RSRM office provides support to the [UT Southwestern Medical Center CTSA Program](#). Particularly, our office manages the CTSA H1 Core which is a collaborative effort between the Texas A&M School of Veterinary Medicine & Biomedical Sciences and the University of Texas Southwestern Medical Center. The intent of the Core is to facilitate cross institutional research partnerships to promote the development of translational research models leading to novel therapeutics and diagnostics.
- The RSRM Office can be reached by phone. You can contact us at 214-648-0456 (or ext. 8-0456 if you're on campus) to speak to someone live or leave a message.
- More information about the RSRM Office can be found here: <https://www.utsouthwestern.net/intranet/research/rsrm/> or:
