Investigational Drug Service  
(IDS) Pharmacy

## **Investigational Drug Service (IDS) Pharmacy**

- **IDS pharmacy is a division of the UTSW Hospital Department of Pharmacy that provides support for clinical drug studies.** We are committed to the safety and care of research patients in both inpatient and outpatient care areas. IDS Pharmacy assures compliance with hospital, federal, state, Joint Commission, and IRB regulations regarding investigational medications.
- We provide comprehensive pharmacy services which include
  - Protocol and study document review
  - Budget proposals
  - Participate in study meetings with Sponsor and with internal study team members
  - Develop study specific procedures for the safe and efficient dispensing
  - Facilitate of Epic drug files and treatment plans per investigational protocols
  - Developed blinding procedures
  - Provide drug storage and accountability
  - Maintain Inventory management
  - Preparation of study medications
  - Record keeping and retention

## Investigational Drug Service (IDS) Pharmacy

- Our Department includes a team of specially trained pharmacists and pharmacy technicians.
