Research (CLSR)

Clinical Laboratory Services Research (CLSR)

- **Clinical Laboratory Services Research is a fully accredited laboratory offering broad range of testing from clinical laboratory and anatomical pathology services.**
- Other services: Lab Normal Ranges, price requests for preliminary budget, CAP and CLIA certificates
- As a College of American Pathologists (CAP) accredited and Clinical Laboratory Improvement Amendments (CLIA) our services support both sponsored and investigator - initiated studies.
- Before we can process your research samples for Lab Analysis, the following steps are needed:
 - Approved IRB with STU #
 - Coverage Analysis completed
 - Performance Site Review Form completed
 - Protocol finalized with clear instructions listing what specific labs are required
 - Peer Review completed by both the A.P. and Core Labs
 - Final budget uploaded after Peer Review is complete in VELOS
 - “Active Enrolling” study status confirmed in VELOS
- Contact the CLSR if you have any questions!

Clinical Laboratory Services Research (CLSR) Office
