

Postdoctoral fellow position in immunology at the UT Southwestern Medical Center

A postdoctoral training position is available in the [laboratory](#) of [Dr. Tuoqi Wu](#), in the Department of Immunology at UT Southwestern Medical Center to study the molecular programs governing T cell stemness and exhaustion during cancer and chronic viral infection. Our laboratory (<https://labs.utsouthwestern.edu/wu-tuoqi-lab>) has several exciting projects including 1) understanding the molecular mechanism of T-cell stemness and T-cell exhaustion, 2) identifying novel targets for improving the efficacy of cancer immunotherapy, and 3) understanding age-associated defects in the T cell response in the CNS.

Candidates must hold a recent Ph.D. and/or M.D. degree. Experience in immunology, cancer biology, neuroscience, or relevant fields leading to publication in peer-reviewed journals is recommended.

Information on our postdoctoral training program, benefits, and a virtual tour can be found at <http://www.utsouthwestern.edu/postdocs>.

Interested individuals should send a CV, statement of interests, and a list of three references to:
