

Post-doctoral fellowships in mucosal immunology and neuroimmunology

A postdoctoral training position is available in the laboratory of [Michael Shiloh, M.D., Ph.D.](#), in the Department of Internal Medicine and Division of Infectious Diseases and Geographic Medicine at UT Southwestern Medical Center to study host-pathogen interactions in the context of mycobacterial infection. [Our laboratory](#) has several exciting projects related to the transmission biology of *Mycobacterium tuberculosis*. Specifically, we are interested in the interface between *M. tuberculosis*, the airway nervous system and respiratory biology (cough) and the interaction of *M. tuberculosis* with the airway mucosal immune system.

Candidates must hold a recent Ph.D. and/or M.D. degree. Experience in neuroscience, molecular biology, biochemistry or immunology leading to publication in peer-reviewed journals is recommended.

Information on our postdoctoral training program, benefits, and a virtual tour can be found at <http://www.utsouthwestern.edu/postdocs>.

Interested individuals should send a CV, statement of interests, and a list of three references to:
