Postdoctoral Positions

Multiple postdoctoral positions in the areas of therapeutic devices, cancer immunotherapy, and veterinary medicine with funding are available in the Department of Radiation Oncology at UT Southwestern Medical Center (Dallas campus).

Candidates must hold a Ph.D.; individuals with expertise in biomedical engineering, immunology, cancer biology, and in vivo animal tumor models are encouraged to apply.

**Key responsibilities associated with the roles:**
- Engage in mechanistic and therapeutic explorations spanning both in vitro and in vivo models leveraging a drug-device synergy.
- Participate in veterinary trials specifically focused on companion animal cancer patients.
- Develop manuscripts for publication and present findings on international and domestic platforms.
- Actively contribute to the collective efforts of the research team.

Information on our postdoctoral training program, benefits, and a virtual tour can be found at [http://www.utsouthwestern.edu/postdocs](http://www.utsouthwestern.edu/postdocs).

Interested individuals should send a CV, statement of interests, and a list of three references to:
