Post-doctoral Trainee Position: Redox Metabolism in Glioma

A postdoctoral training position is available in the laboratory of Evan Noch in the Department of Neurology at UT Southwestern Medical Center to study nutrient and antioxidant metabolism. Our laboratory has several exciting projects related to the investigation of redox metabolism in glioma, with particular emphasis on synergistic drug and dietary therapy.

Candidates must hold a Ph.D. and/or M.D. degree. Experience in cancer metabolism, neuroscience, and/or molecular biology leading to publication in peer-reviewed journals is recommended.

Information on our postdoctoral training program, benefits, and a virtual tour can be found at http://www.utsouthwestern.edu/postdocs.

Interested individuals should send a CV, statement of interests, and a list of three references to:

Evan Noch, MD, PhD
In care of: Vikram Shakkottai, MD
